

**WATER SAFETY
VIETNAM**

**You're invited to our
2nd Annual
Fundraising Dinner**

In Vietnam, drowning is the leading cause of injury related death among children over the age of 1. This is estimated to be in excess of 10 children per day.

Our aim is to significantly reduce the drowning death rate per 100,000 people in Vietnam. We aim to promote the opportunity for all children in Vietnam to learn swimming, survival and water safety skills which will enable them to survive in a range of aquatic environments.

All proceeds from ticket sales, raffles and the silent auction will directly assist in helping us to reach our goal.

Friday 9 November 2012 6.30pm

3 course dinner LIVE band silent auction raffles prizes
